

# LEED® INFORMATION BROCHURE

## STONTEC EFC

# STONHARD

Stontec EFC is a decorative, seamless, vinyl flake broadcast flooring system. It is a nominal 1 mm system that provides an economical yet decorative epoxy flooring option. Its applications vary from light manufacturing to laboratories, lunchrooms, change rooms, hallways, offices and holding areas in healthcare, educational and correctional facilities.

Stonhard, the leader in seamless polymer floors, walls and linings, works with customers and within our own organization to provide more "green" products to the marketplace. As the Global Leader, we have numerous manufacturing facilities that can be utilized to deliver locally manufactured materials to your project. We have developed a unique packaging method that eliminates 85% of the normal waste by volume associated with metal cans from conventional polymer flooring. Combine our packaging, our complete line of low emitting products with our unique polymer floor systems, which incorporate recycled aggregate materials, and it's clear that we are committed to providing the products and initiatives to help you gain LEED® certification. Together, we can lessen our impact on the environment - Stonhard will help your project go Green!
