

STONHARD

FLOOR SYSTEMS

In a healthcare environment, facility managers and administrators face a multitude of challenges. Flooring shouldn't be one of them. Durability, safety and ease of maintenance are essential requirements in day-to-day wellness operations. Stonhard floors combine all of these

with an element of style – making them the first choice for premium healthcare environments. With over 80 years of experience and thousands of finished projects worldwide each year, we are

the leader in seamless polymer floor systems. Whether it's an eye-catching lobby, a corridor, an operating suite or a waiting area, our innovative systems offer a distinct departure from the institutional look of the past.

Available in an assortment of long-lasting formulations, Stonhard floors are the right choice for a wide variety of healthcare applications, including:

- | | |
|---------------------------------|----------------------------------|
| Patient Rooms | Helicopter Pads |
| Hallways | Morgues |
| Cafeterias | Laundry Rooms |
| Operating Rooms | Kitchens |
| Atriums | Emergency Rooms |
| Laboratories | Mechanical Rooms |

Knowledge and Experience

Professionalism and Performance

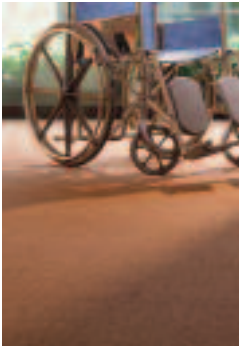

To ensure that each floor system and installation meets our rigorous standards, we directly employ over 300 experienced project engineers and 200 expertly trained installation crews worldwide. Whether you're building or renovating a healthcare facility in the U.S. or abroad, when you contract with Stonhard, you're ensured the finest workmanship and the highest level of professionalism.

Individualized Approach

For Stonhard, there is no one set formula – every floor is a custom project. This allows design professionals to introduce a newfound level of character and sophistication into hallways, patient rooms, cafeterias and more. At Stonhard, this flexibility extends far beyond design – directly onto the job site. Our project engineers and installation crews are responsive to crucial scheduling, maintenance and budget issues. We are able to work with your whole project team to ensure maximum quality and efficiency.

Market Awareness

We are sensitive to the unique demands of the healthcare industry. Often, timing is a primary priority. Our fast-cure, low-odor floor systems install and set rapidly, without affecting maintenance schedules or interfering with patient care. Our next-generation resilient terrazzo significantly reduces distracting noise, even in high-traffic areas, such as hallways and corridors. A smart, attractive choice, Stonhard floors are designed to deliver durability and a long lifespan, greatly reducing floor life-cycle costs.

Add value, aesthetics and durability to your project. Specify a Stonhard seamless polymer floor system.

Quality Floor Systems

Endless Design Possibilities

There's no way around it – aesthetics are just as important as performance. With Stonhard, the design possibilities are virtually unlimited. Our floors are available in a wide array of standard and custom colors, tweed blends and patterns. We can even create floors with inlays and patterns. The possibilities are endless.

Seamless Advantage

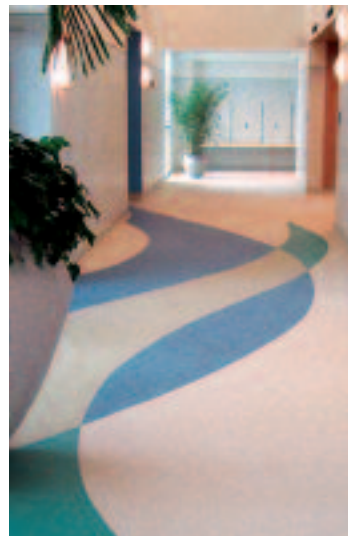

Pure and simple – seamless means cleaner. With seamless floors, there are no joints or cracks to trap dirt and bacteria. And they're easier to maintain. Our unique formulations require minimal maintenance, without the cost and hassles associated with waxing, stripping and buffing.

Safety Factor

In a healthcare setting, safety is extremely important. And when it comes to floors, slips and falls shouldn't be a concern. Our floor systems can prevent accidents from happening. Stonhard floors are available in a variety of textured surfaces that keep patients, staff and visitors safe, even when wet.

Unrivaled Durability

Whether intended for a high-traffic corridor, emergency room, waiting area, kitchen or laboratory, our floor systems are specifically designed to provide exceptional performance. They are uniquely formulated to resist staining by the harsh chemicals and fluids common in the healthcare environment, while outlasting traditional surfaces such as carpet, vinyl tile or sheet goods. Our reputation depends on it.

CUSTOMER SATISFACTION FROM START TO FINISH

Stonhard is dedicated to complete customer satisfaction. We offer a single source warranty covering defects in materials and workmanship for a period of one full year from the date of installation. Our sales offices are located in principal cities throughout the world to assist you in product evaluation and material selection and to provide on-the-spot technical assistance.

The following literature and technical information is available upon request:

- Product Data Sheets
- Chemical Resistance Guides
- Installation Instructions
- Material Safety Data Sheets
- References and Case Histories
