

STONHARD

W A L L S Y S T E M S

Unprecedented leader in polymer systems
for more than 85 years.

THE RIGHT SYSTEM FOR THE RIGHT ENVIRONMENT.

Impact and chemical resistant, easy to clean, chip-resistant, sanitary wall finishes that are designer-worthy, too. Stonglaze Wall Systems offer premier wall solutions for a wide range of applications. From mortar systems to our newest commercial line, we offer products for every environment.

Stonglaze walls resist bacterial growth and foster a sterile environment. These systems smooth out rough surfaces like CMU. Ideal for labs, vivariums and food service areas. Stonglaze also brings damaged, worn walls back to life with a fluid and level new look. Waterproofing options or secondary protection available, too.

We offer a broad palette of colors and textures including flake systems and custom colors for lobbies, schools, offices, healthcare facilities and labs.

Commercial Restrooms

Commercial/Industrial Kitchens

Correctional Facilities

Food Processing Areas

Hospitals

Locker Rooms/Shower Areas

Pharmaceutical/Biomedical Research Facilities

Schools

Transportation Facilities

Vivariums

INFINITE COLOR CHOICE

Smooth and seamless, our wall systems resist splashes, spills, fumes and abrasion. Stonglaze formulations can be applied over concrete, block, cement board or drywall and are expressly designed for sanitary environments. Expert formulations offer huge returns on investment in both industrial and commercial environments. Clean, polished appearance and hardwearing wall systems for even the most rigorous settings.

Stonglaze® VSC

A high solids chemical and stain resistant epoxy glaze wall coating that is applied to vertical surfaces with a smooth, tile-like finish.

Stonglaze® VSI

A high solids epoxy wall glaze for drywall surfaces that incorporates micro-fiberglass additives to increase resistance to cracking, chipping and punctures.

Stonglaze® VSE

A multi-layer, liquid-applied, flexible urethane wall system for areas that require sanitary conditions and endure daily rigorous usage. This smooth, tough system is used in both institutional and industrial environments.

Stonglaze® VSM

A mortar-based epoxy wall surfacing material used in areas that are subject to serious abrasion and corrosion problems. This high performance mortar is used primarily to protect walls in industrial areas exposed to chemical spills and continuous impact.

Stonglaze® VSF

A decorative, high gloss wall system for use in commercial and industrial applications. Ideal for renovating schools and hospitals with painted block walls. An excellent architectural option that breaks away from the traditional painted wall look and can be installed quickly for tight schedules.

Stonglaze wall systems are available in an expansive range of colors that can be formulated to match any décor or palette you can think of. To view the full range of standard colors, visit our website, www.stonhard.ca or contact us directly, 800.263.3112.
