- Floor To Ceiling Solutions
- High-Performance Products
- Largest Stock Availability
- Custom-Designed Capabilities
- ISO 9001 Certified
- Unparalleled Safety Standards
- Real-Time Problem Solving
- Industry-Leading Reputation

---

## WHY IS STONHARD DIFFERENT FROM THE REST?

WITH NEARLY A CENTURY OF EXPERIENCE BEHIND THE STONHARD NAME IN SEAMLESS FLOORING INSTALLATIONS, WE'RE COMMITTED TO BRINGING OUR KNOWLEDGE AND SKILL TO EVERY PROJECT.

You've got clients that demand the highest performance. We've got industry-best solutions you can trust. Stonhard is your partner in industrial-commercial flooring, wall and lining systems nationwide.

Stonhard has worked with contractors to deliver solutions under some of the harshest conditions and most stringent standards in the industry. We've never met a challenge we couldn't solve.

## WHY CHOOSE STONHARD?

### MATERIALS YOU CAN RELY ON EVERY TIME

Stonhard has a reputation for manufacturing quality materials and products that are well-suited to a wide range of commercial and industrial applications requiring cutting-edge solutions for flooring, wall and lining systems. We're proud to be ISO 9001 certified on all of our products.

Our flooring solutions are custom-designed for technical performance and longevity in some of the most demanding environments from hospitals and biotechnical labs to aerospace facilities and oil refineries.

Stonhard has the largest product stock availability in the industry and stocking locations to cover every geographical area in Canada so you always have what you need right at your fingertips.

### SINGLE-SOURCE SOLUTIONS FOR SEAMLESS DELIVERY TO CLIENTS

We understand that as a contractor, one of your biggest challenges is achieving a seamless workflow from project start to finish. We can help you deliver on your clients expectations by providing everything you need under one roof.

Stonhard offers comprehensive solutions designed for contractors' specific and evolving requirements. We handle every step of the process from high-performance raw material manufacturing to expert planning, design, installation, service and support. Manufacturing of materials is directly tied to individual projects which eliminates supply issues, allowing your project to proceed efficiently with no delays. We will work with you every step of the way to help you deliver a flawless end product. We are your single-source partner for delivering seamless flooring solutions to your clients.

## GUARANTEED QUALITY & SAFETY STANDARDS

Stonhard's National Safety Coordinator ensures all projects are executed to extremely high quality and safety standards that meet and exceed provincial and federal regulations. From hazard assessment to air quality monitoring, HEPA vacuum dust control and handling of volatile organic compounds, we take safety procedures and precautions very seriously. Many of our products are certified for the most stringent safety standards, including HACCP certification.

Stonhard's real-time cloud-based site quality program and documentation system monitors critical conditions like temperature, humidity and restricted obstacles so we can mitigate deficiencies and delays, and maintain a safe working environment. Detailed crew training, installation procedure, material safety and product documentation means you, your client and all respective tradespeople have the relevant information easily accessible at all times.

## TRAINED EXPERTS AVAILABLE LOCALLY AND NATIONWIDE

Stonhard has over 40 crews dedicated to supporting your construction projects and solving your building challenges. We are the only manufacturer with nationwide installation capacity. Our tradespeople are fully trained, safety and security certified industry experts who take pride in delivering a wide range of specialized services, and are ready to go wherever you need them.

Headquartered in Whitby, Ontario, Stonhard has regional, full-service centres of excellence across the country in British Columbia, Alberta, Manitoba, Ontario, Quebec and Atlantic Canada.

On-site Engineers and Architectural Specialists are ready with solutions to respond to a wide range of challenges and site-specific concerns, including concrete and crack repair, sloping, excessive movement and waterproofing. Stonhard offers educational sessions with Estimators and Project/Construction Managers so they can gain a better understanding of the available Stonhard repair materials for infrastructure repair.

## PRECISE PLANNING, SCHEDULING AND PROJECT MANAGEMENT

Part of what sets Stonhard apart is our emphasis on the importance of precise planning, scheduling and proactive project management. We will work together with you to develop a detailed executive plan that takes into account the unique conditions, requirements and demands of each project individually.

Stonhard educates site supervisors early in the project and maintains daily communication via on-site construction managers between all project stakeholders. Specialists anticipate and specify contingent budgeting for potential changes or additional requests. We structure our teams for flexibility and scalability, allowing for the assembly of multiple crews working together for fast-track projects.

Because of Stonhard's agile approach to scheduling and project management, our crews are able to respond quickly and efficiently to changes, resolving issues as they arise on-site and making design adjustments and recommendations as the project evolves. We provide comprehensive engineering support throughout projects so you can be assured all stages of the design and installation process are being handled competently.

## A LONG HISTORY OF EXCELLENCE AND AN INDUSTRY-LEADING REPUTATION

Your clients need products and services they can trust. Having worked closely with contractors for over 95 years, we understand exactly what you need to deliver projects on-time, on-budget, and how to exceed customer expectations across the board.

Contractors nationwide trust Stonhard for its history of exceptional quality, reliability and durability across a broad range of applications and environmental conditions, and they rely on Stonhard's fully integrated project management, delivery and installation.

Stonhard has a reputation for delivering commercial and industrial flooring solutions that have been proven to last over time, so you can guarantee a final product to your clients that exceeds their expectations not just today but for many years to come.

## CLOSING THE SPECIFICATIONS GAP FOR CONTRACTORS

Stonhard goes one step further to make your work as a contractor even easier. We are educating architects through a National Architectural Program and Continuous Education Seminars about where and when it is better to specify certain types of flooring, enabling them to specify projects more accurately. Stonhard has implemented a program to work with national firms to create standardized specifications that ensure consistency in specification and supply of products.

## COMPREHENSIVE DOCUMENTATION

Stonhard maintains a comprehensive database of important documentation that's ready to go when you need it:

- SAFETY
- SCHEDULING
- PRODUCT DATA
- SAFETY DATA SHEETS
- CONTRACTS
- MAINTENANCE DOCUMENTATION
- BONDING
- STAT DECLARATION
- WARRANTIES
- MUTUAL NON-DISCLOSURES
- SECURITY CLEARANCES

## SPECIALIZED SERVICES

In addition to high-performance flooring, Stonhard offers the following specialized services:

- [CONCRETE STRUCTURAL REPAIRS](#)
