

STONHARD FLOOR SOLUTIONS

Vincor Canada Ltd.
Niagara Falls, Ontario

AREA: CELLAR

PRODUCTS USED:

- STONSHIELD HRI
- STONSEAL CA7

Vincor Canada is Canada's largest producer and marketer of wine and related products. Their leading wine brands include Jackson-Triggs, Sawmill Creek and Inniskillin.

THE CHALLENGE

Vincor Canada was working on a cellar expansion project of approximately 15,600 square feet, including 600 feet of coving, and strongly desired to move away from the traditional philosophy of cellars being a dark, industrial and monotone environment.

In addition to requiring outstanding chemical and stain resistance, the client wanted to combine high performance with unique aesthetics. Wine cellars

can be especially challenging due to the acids found in wine spills, and with the caustics used to routinely clean the floors.

THE STONHARD SOLUTION

The Stonhard team recommended a custom system that would meet all of the specified requirements. In addition, combining the HRI base with the Stonseal CA7 allowed for a more cost-effective solution.

Stonshield HRI provides an aesthetically pleasing, slip resistant surface that is also durable, chemical resistant and easy to clean.

Stonseal CA7 sealer hardens to an attractive gloss finish and is formulated to increase abrasion and chemical resistance.
