

STONHARD FLOOR SOLUTIONS

Collège de Rosemont Montréal, Québec

AREA: CHEMISTRY & BIOLOGY LABS

PRODUCTS USED:

- STONSHIELD SLT

Located in Montréal, Collège de Rosemont offers a unique and diverse set of educational programs and courses. The focus of this college is to renew its ability to create a climate conducive to learning, and offer a stimulating environment that engages the desire to learn and succeed.

THE CHALLENGE

Collège de Rosemont underwent a renovation project that included an 8,000 square foot seamless flooring component for the Chemistry and Biology Laboratories.

Cost-effectiveness, durability and safety were the primary considerations for this renovation project.

THE STONHARD SOLUTION

The Stonhard Team recommended our Stonshield SLT flooring system.

Safe, easy to clean with aesthetic appeal and design flexibility, Stonshield also offers ultra-slip resistant surfaces to ensure protection from slips and falls.

Stonshield SLT is a cost-effective, textured flooring system that is seamless, free flowing and ideally suited to research, educational, institutional and healthcare facilities.
