

# STONHARD FLOOR SOLUTIONS

## Chilliwack Cultural Centre Chilliwack, British Columbia

AREA: ENTRANCE, LOBBY, CONCOURSE

### PRODUCTS USED:

- STONTEC EFC

The Chilliwack Cultural Centre is a performing arts venue located in downtown Chilliwack, British Columbia. This facility celebrated its Grand Opening in September 2010. The Centre includes an art gallery, a 500+ seat performance theatre, a 150 seat recital hall, rehearsal space, instruction rooms, arts and craft studios, in addition to various related amenities.

### THE CHALLENGE:

Tilt-up methods were used in the construction of this building, and as a result, some of the slabs were damaged. In this case, the original design plan called for a polished concrete floor in the front entrance, lobby and concourse, however Stonhard was able to repair the slab and provide a hard wearing, decorative system in this 10,000 square foot space.

It was important that the flooring system provided a bright, aesthetic appeal, while also offering easy cleanability and maintenance due to continuous foot traffic within this cultural entertainment facility.

### THE STONHARD SOLUTION:

To meet the client's needs and aesthetic expectations, the Stonhard team recommended Stontec EFC, a seamless, decorative, flake flooring system.

Stontec floors offer outstanding physical characteristics, including stain resistance, and are available in an extensive range of finishes and colour options. This unique flooring system minimizes downtime for renovations and saves critical path time on new construction projects while offering exceptional design options.
