

STONHARD'S CHEMICAL-RESISTANT EPOXY FLOOR & HIGH-PERFORMANCE LINING SYSTEMS

STONCHEM

CHEMICAL CONTAINMENT | TRENCHES | TANK FARMS | LOADING DOCKS
CLARIFIERS | TRUCK UNLOADING AREAS | AQUARIUMS | SECONDARY CONTAINMENT
PROCESSING AREAS | BATTERY ROOMS | WASTEWATER TREATMENT FACILITIES

High-performing resin chemistries provide exceptional lining protection for ultra-corrosive environments and perform under extreme physical conditions. The Stonchem product line leads the industry in protection for secondary containment, processing areas, chemical storage, and battery rooms.

PRIMARY FEATURES:

- Abrasion Resistant
- Chemical Resistant
- High Strength
- High Traffic
- Thermal Shock/Cycling
- Wear Resistant
- High-Impact Resistant
- ESD/Conductive Options
