Stonhard resin floor coatings for industrial and commercial applications come in epoxy, urethane, MMA, and vinyl ester formulations. Stonhard coatings are often used in conjunction with Stonhard flooring systems to protect concrete surfaces exposed to abrasive or corrosive environments. Our high-performance coatings are easy to clean and maintain and provide excellent bond strength.

PRIMARY FEATURES:

- Abrasion Resistant
- Chemical Resistant
- High Gloss Option
- Satin Finish Option
- Easy-To-Clean
- UV Stable Option
- Increase Stain Resistance
- Corrosion Resistant
