

STONHARD'S DURABLE, LONG-LASTING ANSWER TO POLISHED CONCRETE

STONCRETE EFX

SUPERMARKETS | LOBBIES | ENTRYWAYS | CORRIDORS | SCHOOLS
OFFICE SPACES | HOSPITALS | RESTAURANTS & CAFETERIAS | CONCOURSES
ARENAS | RETAIL AREAS & SHOPS | BARS, LOUNGES & PUBS | MUNICIPAL BUILDINGS

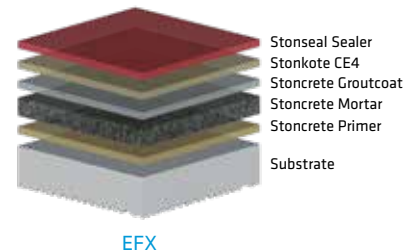

Stoncrete EFX is a troweled, epoxy mortar system that has the look and feel of polished concrete, but with longer lasting durability and performance. Developed for commercial spaces like school corridors, office spaces and retail stores, it is also well-suited to industrial facility lobbies and corridors. Stoncrete EFX can be used for new flooring or to resurface an existing floor.

Seamless flooring is an effective solution and a sanitary one for busy corridors and concourses, locker rooms, multi-purpose areas, offices and lobbies. With no seams there are no crevices for

dirt and bacteria to collect and it's an easy-to-clean surface. Stoncrete EFX is slip resistant, durable, and will maintain its look and finish for years to come.

Stoncrete EFX is available in five base colours and three unique decorative aggregates. The aggregate choices are 100% mirror glass, a blend of recycled amber glass or domestically mined quartz. All are available in matte, satin or semi-gloss finish.

Love the look of polished concrete? You'll love Stoncrete EFX more.
